

Intermediate Level

1. Football Intelligence

At intermediate level, players must understand:

- Why they move
- Where space exists
- How to help teammates

Football becomes less about individual ability and more about decisions.

2. Tactical Principles

Creating Space

Space can be created by:

- Making runs
- Moving defenders
- Switching positions

Example:

A winger moves inside → fullback receives space outside.

3. Attacking Principles

Width

Teams create width by using:

- Wingers
- Attacking fullbacks

Purpose:

Stretch the opponent.

Depth

Depth means having players positioned:

- Behind the ball
- In front of the ball

It creates passing options.

Third-Man Runs

Example:

Player A passes to Player B.

Player C runs behind defenders.

Player B passes to Player C.

This creates unexpected attacks.

4. Defensive Principles

Pressing

Pressing means applying pressure to win the ball back.

Types:

High press

Attack opponents near their goal.

Mid-block

Defend in midfield.

Low block

Protect the defensive area.

5. Intermediate Training

Speed + Technique

Exercises:

- Dribbling at high speed
 - Passing after sprinting
 - Finishing under pressure
-

Tactical Training

Practice:

- Small-sided games
- Position-specific drills
- Decision-making exercises
